

CITY OF
BEDFORD
Police Department

Jeff Gibson, Police Chief

To the citizens of Bedford,

Next week, Governor Abbott will issue a multi-step process for “re-opening” Texas businesses. This will not be a green light for full business operations, but a strategic plan for people to return to work, safely. As businesses and restaurants begin to open, we all have a duty and obligation to continue to protect ourselves and others from the spread of COVID-19. The Bedford Police Department will continue to operate using compliance through education and cooperation as we start the re-opening process.

We must continue to protect the vulnerable population. As always, if you have an elderly or otherwise high-risk neighbor, family, or friends, help them out in any way you safely can. Check on these people and let them know they have a support system.

Nothing has changed at the Bedford Police Department. We will always be here to serve our community and respond to your call. I am forever thankful for your continued support as we have navigated through this. We are all in this together.

Best,

Jeff Gibson
